

BED BUG TREATMENT PREPARATION:

- Remove all items from floor
- Remove shoes from closet/underside of bed
- Discard all cardboard hangers, boxes, etc.
- Place stuffed animals in dryer (high heat)
- Move furnishings/furniture 2-3 feet from wall
- Take all pictures off of the wall
- Remove all wall outlet switch plate covers
- Removing bedding and pillow cases, wash immediately followed by high heat
- Wash all bed sheeting and clothing on normal cycle and high heat dryer cycle (185 degrees) is sufficient to kill 100% of eggs and eliminate future hatch
- DO NOT return laundered clothing and sheeting to hamper basket used to transport
- Vacuum floors.
- No one can be in home for 4 hours
